HOME & GARDEN

“Who says you can’t have high style and still save the planet?”

# greenPots™ ecofriendly planters

are an environmentally friendly alternative to plastic and heavy ceramic gardening containers. These all-natural pots are perfect for any home or garden.

## greenPots:

- are completely renewable, made from grain by-products
- contain no wood or petroleum
- deplete no natural resources
- last five years, then easily decompose in landfills or compost
- are strong, light weight and weather resistant

We offer three distinct lines: Nova, Décor and Grower Series. Pot sizes range from 3" to 12" in diameter. Nova and Décor are available in a gorgeous array of earth tones: avocado, harvest, ebony, mocha, natural and sand.

**Nova Series** – This simple pot has a quiet elegant form, driving home the point that "GREEN is the new black." Available in three sizes, the Nova

is perfect for mixed gardens, specimen planters, house plants or patio pots. Nova's come in all six colors. Saucers priced separately.

**Décor Series** – Get your "green" on with these Eco-Chic styles! Décor containers have clean sophisticated lines. Mix them to make your own design statement. Great for arranging flowers or home accents, Décor comes in the full color range. Saucers priced separately.

**Nursery Series** – For the serious gardener our nursery pots come in multiple sizes, each with corresponding shuttle tray options. These pots are designed to last up to three years and will work with most commercial pot handling and watering systems (including tidal ebb & flow). Nursery pots are immediately available in natural color only, however custom colors may be ordered (10-12 week delivery).

**Saucers** – Saucers are sweat free and will protect delicate surfaces from water damage. Four saucer sizes are available in all six colors.

**Point of Purchase** – For retailers, we offer a variety of POP options to support your success, including downloadable PDF files at no charge to you. Please visit our website at [ecosource-homeandgarden.com](http://ecosource-homeandgarden.com)

**greenPot FAQs:**

**How long will greenPots last?**

Under normal conditions, a greenPot will last five years.

**What are greenPots made from?**

Grain husks (primarily rice hulls) and natural binding agents (a combination of starch based, water soluble binders and biodegradable additives).

**Can I plant greenPots in the ground?**

No, greenPots are meant for above ground use only.

**What colors do they come in?**

We currently carry six colors: avocado, harvest, ebony, mocha, natural and sand.

**Can they handle freezing conditions?**

Yes, testing indicates that greenPots show no damage when exposed to heat, cold or humidity.

**Are greenPots organic?**

Although they are not certified organic, they are ideal for organic production. They contain non-polluting, earth-friendly ingredients.

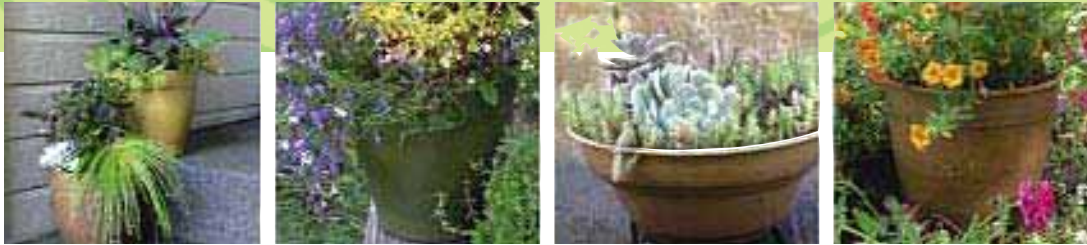

**Are greenPots safe in your dishwasher?**

YES!
